OCORA Press Release for Beta Release – 2/7/2020:

Summary for press release and to be presented to Steering Committee

OCORA, the "Open Control Command and Signalling (CCS) On-board Reference Architecture" initiative, whose signatory founding Members are NS, SNCF, DB, SBB and ÖBB, has reached an important milestone with the Beta release of the specifications of the OCORA architecture. OCORA aims to reduce life-cycle costs and facilitate the introduction of innovation and digital technologies beyond the current proprietary interfaces, by establishing a modular, upgradeable, reliable and secure CCS on-board architecture. OCORA deliverables are published under the European Union Public License (EUPL) and are consequently available for all stakeholders on the internet (https://github.com/OCORA-Public/Publication). OCORA plans a series of prototypes, technical demonstrators and tests in the coming years. The Gamma release is planned for end of 2020 and Release 1.0 end of 2021.
